COMPLETE DRIVELINES

80° Domestic Instructions for Ordering a CV Driveline

To determine the series of a Weasler driveline, reference the dimension of the cross & bearing. Determine the overall length of the driveline in a closed position (Dim. A) in the illustration. Next select the stock number which closely corresponds with the appropriate series and length.

Drivelines furnished without cross & bearing kit and implement yoke. For implement yoke selection refer to Weasler aftermarket driveline component section. When cross & bearing kit and implement yoke are assembled, the overall length of the driveline will be 48" or 67" or 79".
