

STOP HOSE TANGLES AND LEAKY HOSE ENDS!

Introducing the Mosmatic Gun Swivel

Why buy the Mosmatic Gun Swivel?

- Quality design. Stainless steel construction reduces cracking and wear.
- Durability. Mosmatic Gun Swivels are made to hold up well even in high use environments.
- Solution for hose tangles. Screw the Mosmatic Gun Swivel between your hose and gun and maneuver your hose freely. The swivel will turn whenever you do and the hose will lie flat.
- Versatility. The Mosmatic Gun Swivel can be used for a variety of applications: pressure washing, hydraulic use, and lawn spraying.

Are you sick and tired of replacing your pressure washer hose fitting? The Mosmatic Gun Swivel is:

- Maintenance free for the life of the swivel
- Corrosion resistant with normal pressure washing and lawn spraying chemicals
- Leak resistant under routine use for hundreds of labor hours
- Designed for pressure washing and lawn spraying

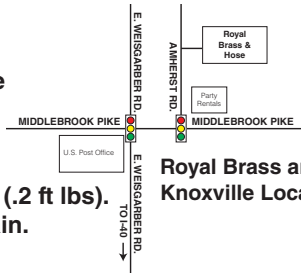

**ROYAL BRASS

1470 Amherst Road, Knoxville, TN 37909 • (865) 558-0224

Main features / benefits:

- Mosmatic Gun Swivels are made of the highest quality Swiss-Made fittings.
- Mosmatic Gun Swivels are VERY LOW TORQUE from 0 PSI (.1 ft lbs) all the way to 4,000 PSI (.2 ft lbs).
- Low torque reduces wrist and arm strain.
- Low torque INCREASES hose and hose end-fitting life substantially.
- Hose ends can be replaced with solid male pipe ends (cheap).
- Typical swivel hose fittings are NOT designed to swivel under pressure!
- Typical hose-end fittings are non-dynamic swivel o-ring designs.
- Hose repair due to coupling leakage is a “thing of the past.”
